COMPRESSOR REBUILD CENTER

24/7 Service: (262) 781-5757

We rebuild:

FRICK | FES | VILTER | HOWDEN | MYCOM | SABROE | M&M | DUNHAM BUSH

Benefits of Rebuilding Your Compressor:

- Climate controlled clean room
- State of the art equipment and tooling
- Factory trained technicians
- One year warranty on all rebuilds
- Genuine factory replacement parts
- Expedited turn around times when required
- Removal and re-installation available
- Factory matched re-painting
- No management of change needed - same model and serial numbers on compressors
- Not an exchange, get YOUR compressor back
- Vibration and oil analysis available
- Increase compressor efficiency
- Reduce power consumption
- Save thousands of dollars
- Save equipment before the rotors are destroyed
- Reciprocating Compressor rebuilds available

Summit Refrigeration Group has the expertise and resources to provide you with competitive screw compressor rebuilding services with minimal turn around time. We perform the entire rebuild in-house, in our state-of-the-art climate controlled rebuild center. This allows us to work within specific time frames and handle emergency situations.
